La Roselière

Côtes du Rhône Villages Laudun

- **Vintage : 2022**.
- **Alcohol Content**: 14.5 %/vol
- **Grape varieties :** Syrah - Grenache - Mourvèdre - Counoise (Very old grape varieties, much used in Châteauneuf-Du-Pape)
- **Terroir :** The soil is mainly composed of siliceous sand with a deep layer of clay.
- **Vines :** The average age of the vines is between **50 and 60 years**, placed on hillsides.
- **Vinification :** The grapes are harvested when **fully ripe**. After de-stemming, the traditional vinification takes place in concrete vats with temperature control around 25°C. The vatting period is approximately 21 days. During fermentation, the lees are stirred to coat the tannins. **Cyril Arnaud** "We do not need to carry out a violent extraction in our winemaking, as the optimal maturity of our berries allows a soft and controlled extraction".
- **Tasting notes :** Intense ruby colour. The nose is frank and expressive, with **ripe black fruit** and hints of **liquorice**. The palate is fresh, fleshy and well structured. Still in this register of black fruits, notes of spices are added with a **garrigue side** quite typical of our terroir.

Joséphine, Fréderic et Cyril Arnaud
