## TECHNICAL INFORMATION

Fermentation is carried out on the skins for about 10-15 days at a controlled temperature (27-28°C). This phase is followed by the malolactic fermentation in stainless steel vats, specifically designed for the delicate extraction of tannin and color. Finally the wine is bottled and stored so that the wine may continue to age.

## TASTING NOTES

Ruby red color; the bouquet is joyful, with a wonderful floral aroma and hints of violet. The wine is fruity with notes of just gathered fresh fruit. The taste reveals ample freshness and minerality. The good sapidity give the palate a pleasant drink.
